COME IN FROM THE COLD.

Quality Gas Fireplaces That
Feature Our Exclusive FireUp™
Upgradeable Fireplace System

VANGUARD
GAS HEATING PRODUCTS

Timeless Beauty - And The Latest Technologies

A Vanguard Direct-Vent Gas Fireplace System offers you an economical and convenient way to add the beauty of a fireplace to your home. These elegant fireplaces offer every advantage you could desire: unsurpassed log and flame beauty, versatile installation options, value added features and state of the art safety systems. There is also a complete line of accessories available.

Vanguard's Performance Line Direct-Vent

Homeowner Highlights

- **Easy upgrades** - With our innovative and exclusive FireUp™ Upgradeable Fireplace Systems, 36" and 42" Performance Line burners and logs can be upgraded to other Vanguard models with no messy construction.
- **Distinctive looks** - Features random dancing flame pattern and realistic glowing ember bed burner... plus exquisite new split oak ceramic fiber logs.
- **Operation and maintenance are a breeze** - Can operate from optional wall switch or remote control. Hinged glass door swings open for easy maintenance and never needs adjustment.

Easy Installation

- **Secure, straight installation** - Sturdy nailing flanges, and drywall stops.
- **Venting options** - Our 45° slant back design lets you choose between horizontal and vertical venting for painless installation. Your choice of hard or flexible venting.
- **More standard features** - Flex gas connector, shut-off valve and pre-wired "J" box are all standard.
- **Quality Vent Kits** - Installs with Vanguard's 5"/8" direct-vent pipe system
